THE INFORM JOURNEYS PROJECT

Today, almost a third of our students nationwide leave high school without the skills necessary to succeed in college, to participate in a 21st century workforce, or to earn a family-supporting living. San Diego students are not excluded from this problem. In fact, there are 53,000 young adults in our community that are disconnected, not working or in school.

San Diego students are in need of a pathway to succeed in the real world. With the generous support and partnership of INFORM Journeys, the Classroom of the Future seeks to address this problem through the INFORM Journeys Project. The goal of the INFORM Journeys Project is to ensure that San Diego students achieve college and career ready outcomes when they graduate high school. In the coming 2016-2017 fiscal year, Phase I of this project will include the following components:

- A seminar on linked learning in September 2016 for educators and business leaders
- Access to the powerful Journeys Map on the CFF website
- Virtual job shadowing experiences live streamed to students in selected schools
- Think tanks for teachers and business leaders to expand linked learning knowledge
- A white paper on linked learning research and the future of this initiative

Together, we can prepare our students to be our future workforce.

GET INVOLVED

- Is your school interested in participating in a live-streamed virtual job shadowing experience?
- Is your business interested in hosting a virtual job shadowing experience?
- Would you like to attend a fall seminar to learn more about linked learning?
- Are you a teacher or business leader that's interested in joining a linked learning think tank?

To learn more about these opportunities and get involved with the INFORM Journeys Project, please email James Wright at james@classroomofthefuture.org.

ABOUT JOURNEYS

Explore. Plan. Succeed. Journeys provides users the ability to explore possibilities, plot life's major transitions, and set goals. Journeys works like Google Maps, but for navigating K-12, CTE, college/university, military service and our/vocational training using an interactive map. Select a destination and Journeys will calculate the time to get there, provide detailed pathways to the selected destination and offer individualized assistance. The personalized learning maps can be saved, shared, and modified at any time. Journeys is the gateway to exploring lifelong learning with directions to guide the trip. To learn more about INFORM Journeys, visit www.informjourneys.com.

ABOUT CFF

Inspire. Innovate. Achieve. Established in 1997, the mission of the Classroom of the Future Foundation (CFF) is to engage business, community, and educational leaders in creating innovative learning environments in San Diego County K-12 schools. CFF works to advance its mission by ensuring that San Diego students are prepared to thrive in a competitive global society. CFF is known for being the convener of business, community, and educational leaders around innovation in education. Moreover, CFF is a catalyst and champion for the creation of learning programs that apply proven business and technology-based practices in the school setting. CFF is also a trusted resource for school districts, and a thought leader on innovation in the classroom. To learn more about CFF and get involved, visit www.classroomofthefuture.org.
